

Housekeeping Award Checklist

Guest Room Housekeeping Guidelines

ENTERING UNIT

- Knock on door and identify yourself (i.e. "Housekeeping") before entering. Enter room.

CHECK TO ENSURE PROPER FUNCTION OF:

- Thermostat - TV/Radio
- Lights/Lamp - Windows
- Smoke Detector - Locking Devices

MAKING THE BED

- Strip and shake out all bed linens to ensure no items have been left behind by guests.
- Lay clean, wrinkle-free underpad on mattress.
- Spread bottom sheet over pad & smooth out, tucking both sides under mattress. Leave bottom hanging free over foot of the bed.
- Spread top sheet, ensuring it is centered and that at least 8" is available to overlap blankets at the head of the bed.
- Tuck sheet & blankets together under mattress at foot of bed only, making neat "hospital" corners & leave sides hanging.
- Never tuck the top sheet under the mattress at the sides, as the bottom sheet will come loose when the guest pulls down the top sheet and blanket to get into bed.
- Replace pillowcases; place pillow on bed with open ends toward the outside.
- Cover bed with a clean bedspread or duvet, which should be free of wrinkles and hang evenly around the bed.
- If the room is equipped with a "ready-made" hide-away-bed, pull out the bed and check linen to ensure that it was not used and then refolded back into a closed position.
- It is suggested to change bed linens every third day in rooms occupied with a stay-over, unless your property participates in a water conservation program*

PERSONAL BELONGINGS LEFT BEHIND

- In order to ensure that no personal belongings were left behind by departing guests, check under beds, inside all drawers, on the back of the bathroom door, and inside bathroom cabinets (if applicable).
- Articles left behind by guests should be labeled with date found, room number, and the Room Attendant's name, and given to management to be logged and stored in the lost and found locker.

FRESH FURNISHINGS

- Wash all ashtrays
- Discard disposable items & empty waste basket
- Replenish wrapped/sanitized glasses
- Replace burnt out light bulbs
- Ensure all standard amenities are provided
- Arrange literature/stationery supplied
- Arrange curtains/drapes to hang correctly

DUSTING

- If left unattended, dust buildup can become a serious problem. Remember to dust:
 - All woodwork and furniture
 - Picture Frames
 - Window and door sills
 - Shelf above clothes rack
 - Heating/air conditioning units and vents
 - Lampshades
 - Televisions and electronics

CLEANING THE BATHROOM

- Bathrooms must be kept clean and sanitary at all times. Humidity and unsanitary conditions can quickly make bathrooms a breeding ground for germs and other harmful bacteria.
- The toilet bowl should shine clean with absolutely no sign of stains:
 - Place small amounts of bowl cleaner on swab and clean inside of bowl
 - Allow cleaner to contact entire surface before flushing
 - Wipe outside of bowl with clean, sanitized cloth
- Sanitize toilet seat and ensure that it is not loose. Notify maintenance if it needs repair.
- Bathtubs/showers, washbasins and tiles must be cleaned and wiped dry with a sanitized cloth. All chrome must be polished.
- Check and wipe dry inside of shower curtain to remove any buildup of soap, hair and/or stains.
- Clean and polish mirrors, vanity top and under rim of washbasin (if not enclosed).
- Arrange clean towels, washcloths, bathmat and soap.
- Check and refill tissue and toilet tissue dispensers.

VACUUMING

- Remove any spots from rug
- Vacuum carpeted areas including under beds & furniture
- Pass vacuum nozzle over ventilation grills to remove dust buildup

ONE LAST LOOK

- After room is completed, stand in door and take a good look around from a guest's perspective.
- Correct any discrepancies.
- Deodorize and lock the room.

FINAL INSPECTION

All units or rooms should be inspected by Housekeeper or Manager before guest occupancy

*A water conservation program is one in which the stay-over guest can choose how often linens are to be replaced
